

Call for abstracts

AI-projects in healthcare

Are you a young researcher working on AI-projects in healthcare?

Present your research project in a “Shark Tank” competition for AI projects and compete for a grant of 10.000 DKK.

How can we advance AI development in pharmacology, while ensuring ethical integrity and prioritizing patient safety? The *Symposium on Artificial Intelligence and Pharmacology – present and future* is a one-day symposium taking place on June 3rd, bringing together academia, industry, and the public healthcare sector to address these questions.

To engage and support early-career researchers, we host a **Shark Tank - Early-Career Innovation session** (Danish: *Løvens Hule*). Here, you will have the opportunity to present your research project in front of an expert panel of AI researchers, healthcare professionals, and patient representatives. The **three best abstracts** will be selected for presentation, with the best presentation being awarded with a 10.000 DKK travel/research grant sponsored by The Danish Association of the Pharmaceutical Industry (Lif).

Why Participate?

Gain exposure for your project, engage with field experts, and get a chance to win 10.000 DKK. Participating in the Shark Tank session is a unique opportunity to gain valuable feedback on your project. Additionally, your presentation will be a catalyst for discussions on current developments within the field and provide you with great opportunities for communicating your research and fostering new collaborations.

Submission Details:

Submit an abstract of max. 300 words (excluding authors, affiliations, and references). Abstracts will be selected based on the relevance of the problem your project addresses within healthcare, its potential impact on patients, and the innovative use of AI where applicable.

Deadline for submission: 17th of April 2025

Notification of Acceptance: 1st of May 2025

Submit your abstract or for further information or questions, please write us at:

phair.bispebjerg-frederiksberg-hospitaler@regionh.dk

The symposium is organized by the AI and Pharmacology Research Group from the Department of Clinical Pharmacology at Bispebjerg Hospital and supported by the Novo Nordisk Foundation (main sponsor). The symposium will feature keynote talks, interactive sessions, and discussions on the opportunities and challenges of AI-driven healthcare.

The symposium takes place at **Altinget, Ny Kongensgade 10 1472 København K, June 3rd, 2025.**
